USERS

USER_ID	int	auto	"PK"
USER_NAME	varchar(30)		
USER_EMAIL	varchar(255)		
...			

NOTE
1. Type CHAR stands for user defined values
2. DISH_PHOTO could have a type VARCHAR (image URL) or
   BLOB   (up to 64KB image size)
   MEDIUMBLOD   (up to 16MB image size)
   LONGBLOB   (up to 4GB image size)
   URL is the most preferable!
3. DISH_WEIGHT is VARCHAR because sometimes the following
   notation is used: "160/100" or even "80/80/60"
